**EXHIBIT E2 - U.S. PATENT 10,016,284**  
**Infringement Claim Chart**

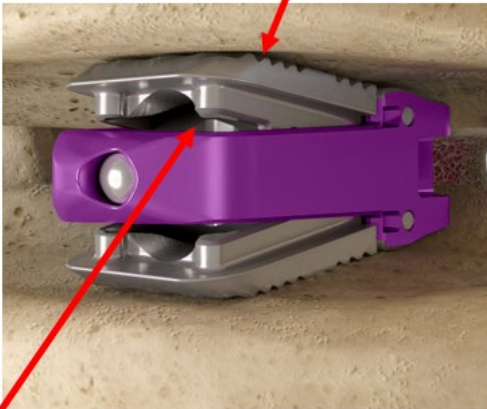

U.S. Patent 10,016,284		NuVasive Infringing Activity <sup>1</sup>
Row	Claim 1	TLX Spinal System
1A	<p>An expandable interbody device comprising:</p> <p>a first housing extending from a first end to a second end, wherein the first housing has first and second end portions positioned at the first and second ends, respectively, and has first and second side portions extending between the first and second end portions,</p>	<p>The '284 Accused Instrumentalities include an expandable interbody device that has a first housing extending from a first end to a second end, wherein the first housing has first and second end portions positioned at the first and second ends, respectively, and has first and second side portions extending between the first and second end portions.</p>
